Our high quality knee protectors

Comfortable cushion, excellent impact deflection and ergonomic shape allowing freedom of movement – you'll hardly know you've got them on.

70.200

Knee protectors

Model 70.200 Secure & More

This very robust knee pad is useable for every kind of surface. Very good impact deflection and maximum comfort because of a gel and EVA cushion. The plastic cap can be taken off by means of Velcro fastenings, this then slidable knee pad can also be used for sensitive interior surfaces. The flat plastic cap also guarantees high stability for the knees. Level 2 (with cap)

Model 70.110 + 70.110B Proven & More

Price aggressive knee pad with gel and EVA foam cushion and a plastic cap. One elastic neoprene strap with Velcro fastening closes directly below the knee - therefore no constriction at in the back of the knees with and high comfort. Available in black or transparent. Level 1

70.110B

70.010

70.400

70.013V

70.600

Model 70.010 Flexible & More

Very comfortable fit because of a gel foam and EVA foam cushion. One elastic neoprene strap and one elastic strap - which is optionally removable - allowing freedom of movement and maximum comfort. Suitable for every kind of surface because of the smooth and robust plastic cap. Level 2

Model 70.400 Gel knee protector

Gel knee pad, small protector - great effect because of the extra thick gel pad which adapts to the shape of your knee. The plastic cap prevents abrasion. Ladies most wanted model. Recommended for all kinds of kneeling work and all surfaces. Level 1

Model 70.013V Harmonica

This knee protector made of rubber-like TPE adapts perfectly to the knee thanks to its flexible 4 rubber pleats. An aero-cell rubber pad ensures comfortable and knee-friendly kneeling. The infinitely adjustable and comfortable textile straps are located outside of the knee. One set of robust solid rubber straps are already included at every pair and in the price. Level 1

Model 70.600 Select & More

The high-quality gel knee protector is fixed clearly outside the knee. Due to the unique, patented coating on the inside, the knee protector does not slip off the knee. The lateral high connection to the leg prevents dropping in of stones and sand. High-quality foams and an ultra-soft ring-gel pad guarantee an ideal cushioning for the knee. Perfect for long work on hard surfaces. With anti-slip plastic cap. Level 2
